**CANNABIS
REGULATION**

On May 1, 2023, the Department of Cannabis Regulation (DCR) launched its Annual License Application process.

From May 31 to June 5, 2023, the DCR Licensing Portal was unavailable so that DCR could update the system to make the Annual License Application available upon the completion of the Pre-Application Review process.

That update is now complete.

Annual License Basics

CITY OF LOS ANGELES DEPARTMENT OF

**CANNABIS
REGULATION**

How does the Annual License Application process differ from Temporary Approval?

The Annual License Application is a longer process which includes an environmental analysis (CEQA review) for all businesses, as well as community meetings/public hearings for retail storefront businesses while the Temporary Approval does not necessitate these requirements.

Annual License Basics

CITY OF LOS ANGELES DEPARTMENT OF

**CANNABIS
REGULATION**

How quickly must this process move?

Effective July 1, 2023, businesses must demonstrate significant progress in the annual licensure process to renew their provisional licenses. If these milestones are not met, the renewal of a state provisional license may be denied, forcing these businesses to cease operations as they'd fail to meet the dual licensing requirement. All provisional license holders must transition over to annual licensure by 2025, as renewals will not be granted after that date.

Partial List of Categorical Exemptions under CEQA

Certain commercial cannabis activities (projects) may be exempt from further environmental review pursuant to the California Environmental Quality Act (CEQA) because they fall within a class of projects determined not to have significant effect on the environment. (Cal. Code Regs., tit. 14, § 15300 et seq.) Common exemptions that may apply have been identified below.

Class	Category	Description
Class 1	Existing Facilities	Consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. (Cal. Code Regs., tit. 14, §15301.)
Class 2	Replacement or Reconstruction	Consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced with a new structure of substantially the same size, purpose, and capacity. (Cal. Code Regs., tit. 14, § 15302.)
Class 3	New Construction or Conversion of Small Structures	Consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. (Cal. Code Regs., tit. 14, § 15303.)
Class 4	Minor Alterations to Land	Consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry and agricultural purposes. (Cal. Code Regs., tit. 14, § 15304.)
Class 5	Minor Alterations in Land Use Limitations	Consists of minor alterations in land use limitations in areas with an average slope of less than 20%, which do not result in any changes in land use or density. (Cal. Code Regs., tit. 14, § 15305.)
Class 15	Minor Land Divisions	Consists of the division of property in urbanized areas zoned for residential, commercial, or industrial use into four or fewer parcels when the division is in conformance with the General Plan and zoning, no variances or exceptions are required, all services and access to the proposed parcels to local standards are available, the parcel was not involved in a division of a larger parcel within the previous 2 years, and the parcel does not have an average slope greater than 20 percent. (Cal. Code Regs., tit. 14, § 15315.)
Class 32	In-Fill Development Projects	Consists of projects characterized as in-fill development meeting the conditions described in Cal. Code Regs., tit. 14, § 15332.
